

STONE FABRICATION SAFETY

Safety Around Stone Equipment

- ❖ Make sure everyone authorized to use any equipment, has been properly trained.
- ❖ Set procedure for locking out the equipment, so it can't be turned on accidentally (key-lock, breaker, etc)
- ❖ Mandate the appropriate use of safety equipment such as safety glasses, ear protection, etc.

Safety When Fabricating

- ❖ Wear ear protection and back support when appropriate.
- ❖ Wear rubber pullover boots and water apron.
- ❖ Wear safety glasses whenever in production environment.
- ❖ Protect your electrical tools from water exposure, use GFCI protection.
- ❖ Fabricate using wet techniques, or wear appropriate respirator. Long-term exposure to granite dust can be hazardous.
